

High Performance Biocide Products

Disinfection, sanitising and combined sanitising/cleaning products formulated using synergistic blends of multiple biocides to prevent the development of single biocide-resistant micro-organisms

SANITISING AND SANITISING/CLEANING

Code	Product	Applications
BC340	HIGH PERFORMANCE SANITISER	<ul style="list-style-type: none"> • High performance sanitiser for general use, wipe surfaces dry if likely to come in contact with food • Usage: dilute 1 part in 100 to 200 parts of clean water • Biocide formulation proven effective against normal and antibiotic-resistant bacteria • Contains a synergistic blend of quaternary biocides, builders and biodegradable sequestrants
BC345	HIGH PERFORMANCE CLEANER + SANITISER	<ul style="list-style-type: none"> • High performance combined cleaner+sanitiser for general use, to allow cleaning and sanitising to be carried out as a single step • Only use at lower concentrations if surfaces are likely to come in contact with food • Wipe surfaces dry if likely to come in contact with food • Usage: dilute 1 part in 25 to 200 parts of clean water • Biocide formulation proven effective against normal and antibiotic-resistant bacteria • Contains a synergistic blend of quaternary biocides, builders and biodegradable surfactants and sequestrants

COMBINED DESCALING AND SANITISING

Code	Product	Applications
BC370	HIGH PERFORMANCE COMBINED DESCALER + SANITISER	<ul style="list-style-type: none"> • High performance combined descaler and biocide for automatic dosing into urinals and toilets, etc. • Removes lime-scale and uric acid scale • Sanitises urinals and toilets automatically with each flushing • Usage: fill reservoir with undiluted product, product is effective at dose rates down to 1 part in 600 parts of water • Contains a synergistic blend of quaternary biocides and organic acids

AUTOMATED PUBLIC CONVENIENCES

Code	Product	Applications
BC320	APC COMBINED CLEANER + SANITISER	<ul style="list-style-type: none"> • Combined cleaner and biocide for use in automatic cubicle wash down and sanitising systems used in automated public conveniences • Biocide formulation proven effective against normal and antibiotic-resistant bacteria • Contains a synergistic blend of quaternary biocides, builders and biodegradable surfactants and sequestrants
